

National Eagle Scout Association

Distinguished Service Award

The National Eagle Scout Association (NESA) committee established the NESA Distinguished Service Award in 1976 to recognize extraordinary, dedicated leadership and/or service to NESA resulting in significant impact on a national or regional level over a period of several years. Leadership and service that impacts farthest beyond the local council are key considerations. Basic considerations include current registration with the Boy Scouts of America and specific actions that enhance NESA's image, reputation, effectiveness, and membership.
